Gale was introduced in 1999 to specifically join to GF Rammer. This mating was achieved with the excellent breeder, Wallawong Gale 2nd, being produced. Gale M22 went on to produce 8 progeny for us, including 4 sale bulls. Her sales total nearly \$11,000 with 2 females currently retained in the herd. Although she does not possess outstanding Breedplan data, her value was in her longevity and structural soundness.
