**Traits Observed:** BWT, 400WT, 600WT, SS, FAT, EMA, IMF

**Statistics:** Number of Herds: **6**, Progeny Analysed: **213**, Scan Progeny: **4**, Number of Dtrs: **5**

Sold in 2005 for \$11,250, Sensational has a well recognised pedigree. His mother a large robust cow sold for \$12,500 in 2008, while his father has 350 performance recorded progeny. Proving that Sensational is not a fluke, his full brother sold for \$14,500 in 2009.

We inspected him on two occasions, as a yearling and a 4 year old. On both occasions we were impressed with his style and structure, and on the second occasion, the uniformity of his progeny was outstanding. He is a bull we have great confidence in using in our AI program. Coupled with his excellent phenotype is his impressive performance data, being a trait leader for all growth traits, scrotal size and carcass weight.

We used Sensational by AI in 2008 and 2009. His bull calves possess style and commercially desirable muscle patterns. His first male progeny will be available at our 2011 production sale.
