Sledgehammer was purchased privately as a mature sire in 2004. He was used over a number of registered mature females. His calves were born easily and were tall and lengthy. Due to his age he was only used for 2 seasons, however, he produced 60 registered calves and numerous commercial calves. We have a number of 'A' drop cows that are proving to be functional and possess excellent udders. His performance data supports his physical attributes, being well above average for 600 day weight and eye muscle area EBVs. Sledgehammer has sold in excess of \$60,000 worth of progeny. Semen is limited.

Semen \$27.50 per straw
