**Traits Observed:** 600WT, SS

**Statistics:** Number of Herds: **10**, Progeny Analysed: **123**, Scan Progeny: **41**, Number of Dtrs: **32**

Leyland was purchased in 1997 when he was the Reserve Junior Champion at the National Show and Sale. He remained in the herd for 8 years and produced 111 progeny in the registered herd and in excess of 100 in the commercial herd. He was a sound producer with structurally correct and fertile females and well muscled male progeny. We have numerous mature females still in the herd and they are producing well. To date Leyland has sired in excess of \$105,000 worth of registered progeny. He is very suited to joining to heifers and we would highly recommend him for this purpose.

**Semen \$27.50 per straw**
