### Actual Data

Age	Weight	Frame Score	Scrotal Size	EMA
10mths	510kg	7.0	36cm	94cm <sup>2</sup>
33mths	930kg	6.2	44cm	122cm <sup>2</sup>
48mths	1100kg	6.2	45cm	128cm <sup>2</sup>

Ripsnorter is one of the best junior bulls we have produced, and sold for \$14,500 as a 4yr old. He was a very growthy calf, at 10 months weighing 510kg with a frame score of 7.0. His Breedplan figures are also very impressive. His dam has proved to be a very consistent and productive female, having produced the heaviest heifer of the 2006 drop, Ripsnorter as her second calf, and the heaviest weaner bull of the 2008 drop. Ripsnorter was used over a large number of females in 2008-2010, with progeny selling to \$6,500. We highly recommend him for those breeders looking for a new and dynamic genetic injection into their breeding program.

**Semen \$55 per straw**
