Statistics: Number of Herds: 3, Progeny Analysed: 11, Scan Progeny: 6, Carcase Progeny: 0, No of Dtrs: 2

The Caldora family line was introduced in 2004, with the purchase of Willalooka Caldora P149 and daughter Cobbora Springs Caldora U4. Between them they have proved to be producers of highly desirable offspring, having the top priced bull at the 2007 sale, and top priced heifer at the 2008 sale. Furthermore, Caldora P149 was the dam of our successful 2008 Brisbane Royal steer exhibit. Between the two females they have sold \$17,000 worth of progeny in the last 3 years. They have also produced Wallawong Quarterback, with calves due in 2009. We continue to use embryos that were collected prior to her leaving.

Wallawong Quarterback – Grandson of Caldora P149
Top priced bull 2007 sale.

Wallawong Rambo – Son of Caldora P149
2008 Ken McDonald Shield Team Brisbane RNA
