2026 SALE INFORMATION

INSPECTIONS: Open day on property, Thursday 6th August 10am - 3pm. Pre sale viewing Friday 14th August 3pm-5pm. Sale day, Saturday 15th August, from 8.30am. Inspections prior to sale are welcome by contacting vendors, Lachlan & Kate James, on phone 0402 839 373.

REBATE: 3% on bulls to outside agents nominating buyers, personally attending the sale (or facilitating the purchase and nominating the buyer 24hrs prior to the sale) and settling the account within 7 days. 2% on females where an individual client purchases 4 or more live lots with outside agents nominating buyers, personally attending the sale (or facilitating the purchase and nominating the buyer 24hrs prior to the sale) and settling the account within 7 days. These rebates will be strictly enforced.

DELIVERY: Delivery will be given at the completion of the sale.

BUYER'S INSTRUCTION SLIP: Must be completed by all successful purchasers and registered with the selling agent prior to delivery. Please find buyers instruction slip at the back of the catalogue.

TRANSPORT OPTIONS: Wallawong Premium Beef is offering FREE TRANSPORT, within 200 km of Gunnedah, for any breeding age mature bull purchased at the sale, and to purchasers of 4 or more female lots.

As we will be using a paid courier to deliver some of the sale cattle, purchasers between 200km and 400km from Wallawong will be billed the extra mileage (over 200km) at a rate of \$3.00/km + gst per delivery of 1 or more bulls or 4 or more females.

We are also offering guaranteed maximum delivery prices (+gst) per bull or female purchased for \$8,000 or more, for interstate buyers. WA/TAS \$750, SA \$600, Vic \$550, Sth/Central QLD \$500. When transport is coordinated by Wallawong and conducted by Geddes Transport or Joe Wilton Transport or Quicksilver Transport.

Buyer's instruction slip must indicate the intention to undertake the free/subsidised transport offer. Purchasers should note that the bulls/females are at the purchaser's risk at the fall of the hammer and all transport offered by Wallawong is at the purchaser's risk.

TRANSFERS: Any purchaser wishing to opt out of Angus Australia (AA) disclosing personal information need to do this in writing to AA. More information regarding AA's privacy policy can be found at <http://www.angusaustralia.com.au/privacy/>

HERD HEALTH: The Wallawong herd is TB and Brucellosis free. For approximately 15 years the herd held an MN2 protected/JBas 8 accreditation as part of the now defunct Johnes's Market Assurance Program/ JBAs program. With the deregulation of WA Johnes entry requirements, we have not pursued further testing and now hold a JBAs 6 status.

All lots in the sale are eligible for entry into all states and territories of Australia.

- All breeding age mature bulls in the sale are 3 Germ (tick fever), Vibrio, 3 Day Sickness and 7in1 vaccinated. All females in the sale are 3 Germ (tick fever), Pestivirus and 7in1 vaccinated. All calves at foot are 3 Germ (tick fever) and 7in1 vaccinated.
- All cattle in the sale are Pestivirus PI tested negative.
- All breeding mature age bulls have undergone a crush side semen test and physical penile examination by Excel Genetics.
- All joined females will be pregnancy tested prior to the sale, with results available on supplementary sheet.
- All registered bulls and females have been sire verified (many parent verified). All calves have been sire verified or have tests pending. All pending lots are sold on the basis that the pending verification results will support the pedigrees printed.

For Black Angus cattle the following suffixes are used in the catalogue: PV = Both parents have been verified by DNA, SV = The sire has been verified by DNA, # = DNA verification has not been conducted.

INSURANCE: Purchases become the responsibility of the buyer at the fall of the hammer. While all care will be taken by the vendors, we recommend buyers insure their purchases. Please contact Achmea Insurance or the selling agent to arrange insurance.

SALE DAY SAFETY: All lots will be penned and available for viewing on sale day. Persons enter the sale pens at their own risk, and no prams or children under 15 years are to enter sale pens.

TERMS AND CONDITIONS OF SALE: Agents will display their terms and conditions of sale on the day of the sale. GST (GOODS AND SERVICES TAX): All lots sold are GST exclusive. As outlined in the agents terms and conditions, GST will be added on to the auction purchase price upon invoicing.

TRAVEL: Qantas and Virgin provide flights between Sydney and Tamworth. Tamworth is located 74km East of Gunnedah. Contact Qantas on 131313 to arrange bookings.

CATERING: Morning tea, tea and coffee, cold drinks and BBQ lunch available at the open day, previewing and sale day.

ACCOMMODATION: There are numerous motels in Gunnedah, book early to avoid disappointment.

Gunnedah Motor Inn	02 67422377	Harvest Lodge Motel	02 67423400
Red Chief Motel	02 67420833	Plains Motor Inn	02 67422511

GUARANTEES: All breeding age mature bulls offered for sale are guaranteed to be fertile and capable of natural service. Any claim made must be in writing and accompanied by a veterinary certificate within six months of the date of sale. This guarantee does not extend to bull calves at foot.

All adult females are offered in good faith and for genuine sale. Pregnancy status will be presented on the supplementary sheet. This pregnancy status was determined by manual vendor preg testing or hormonal blood testing. Wallawong takes no responsibility or makes any guarantee regarding the pregnancies stated resulting in a full-term live calf.

Any adult female determined not to be pregnant at the time of testing are guaranteed fertile and capable of becoming pregnant. Any claim made must be in writing and accompanied by a veterinary certificate within six months of the date of sale and does not include females that have been subsequently flushed.

Wallawong takes no responsibility nor makes any guarantee regarding the future fertility of calves at foot.

All embryos offered are A grade, and a 50% 90day conception guarantee is offered to all purchasers of 10 or more embryos. This guarantee is given if the embryos are implanted within 6 months by a recognised embryo technician.

The guarantee is such that Wallawong will refund individual embryo purchase price upto the 50% threshold. The guarantee does not include any losses due to storage or transport of embryos.

All semen offered has been collected and stored by external contractors. We have regularly used semen from these batches and have had industry standard conception rates.

FERTILITY GUARENTEE

We guarantee all breeding age mature bulls to be structurally sound, fertile and capable of natural service. Bulls are guaranteed for up to six months from the date of sale. However, should a bull prove not to be able to perform the above duties we will:

- Replace the bull with an agreed substitute if available, or
- Issue a refund equal to the purchase price less salvage value.

The guarantee covers the purchase value of the bull, without interest, costs or damages.

The guarantee shall apply providing the bull's incapacity is not caused by injury, misadventure or disease contracted since leaving Wallawong. A veterinary certificate must also be supplied by the purchaser.

Wallawong
PREMIUM BEEF

Champion Led exhibit, 2024 Wingham Beef Week, from 143 entries. 20 years of Wallawong Black and Silver Genetics contained in this heifer. Bred by Heath Birchall.

Introduction to Wallawong Premium Beef

Welcome to our Last Dance Sale.

They say life is about the journey and not the destination. At this point in our journey, we have decided that it is the right time to step aside from the breeding of seedstock cattle and to focus on commercial/trade cattle and our newly acquired butcher shop, Mornington Butchery Gunnedah. The good news is that everyone is healthy and happy, and the decision to sell is not one made out of desperation or separation.

With both boys now in the workforce, Stirling undertaking his defence force enlistment and Fraser an apprenticeship with Double R as a farm mechanic, there is not the drive required to continue the seedstock operation to the level required.

Looking back, it is hard to believe that what started out as a teenager's dream, grew into a business that has sold cattle to all states and territories of Australia, exported semen/embryos to 8 countries across the globe and been one of the dominant forces in carcass competition for the past 30 years. Along the way we have exhibited steers in 4 states and been award Champion Carcass exhibits at Sydney Royal, Upper Hunter Beef Bonanza (x2) and Wingham Beef Week (x3). Added to this we have been the only exhibitor in Australia to win the same carcass class across 3 Beef Australia National Carcass Competitions, in 2018, 2021 and 2024.

We have seen the evolution of seedstock production from AI to ET to IVF, from Breedplan to Genomics to Single Step Analysis. While all this has been happening, the focus has always been on functional efficient cattle with that extra bit of carcass punch.

Breeding cattle is not only about the cattle, but all the friendships you make along the way. Thank you for the friendship of many of our clients who have been loyal and supportive of our program over the decades. Especially those that we consider close friends and mentors, including Bryce and Diane Whale (Glenliam Farm), Craig and Jacinta Grant (Lindsay Murray Greys) and Lincoln and Lisa Job (Marellan Shorthorns).

The success of Wallawong would also not have been possible without the support of extended family, including Brian's willingness to encourage the first stud female purchases, Liz's ability to discerningly distribute farm assets, and John and Val's ability to pitch in when things just needed to get done. We thank them for their contribution throughout the years.

Over the years we have been fortunate to have been offered several group female buys, often on favourable extended terms and we thank Andrew Metcalfe (Springwell Murray Greys), Paul and Sandra Francis (Ondiong Murray Greys), Brian Abbott (Abbott Angus), Sam and Cliff Owen (Bundaleer Murray Greys), and Charles and Janet Wallace (Woodbourn Angus) on their willingness to give us access to such great female lines.

These female lines have been multiplied through extensive AI and ET programs, and we are grateful for the ET contributions made Dr Stewart Scott, Dr Ced Wise and Dr Stuart Geard over the years. With almost all of the lots contained in this catalogue conceived by AI or ET, the ability to magnify positive female traits has been tremendous.

With the positive cattle market and the grass growing under our feet, we offer the cattle for genuine sale, and we wish that you enjoy owning them as much as we have over the past 3 decades.

Signing out for the last time,

Lachlan, Kate, Stirling and Fraser James

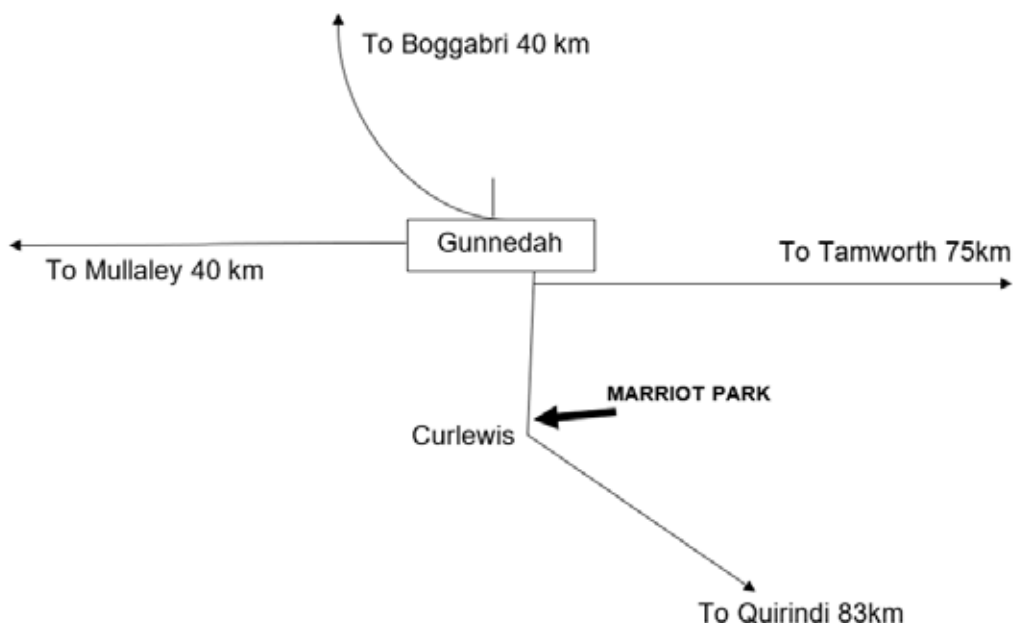

DIRECTIONS TO 'MARRIOT PARK'

From Tamworth (90 km)

Take Oxley Highway to Gunnedah. Just before reaching Gunnedah township, turn left (on to Kamilaroi Hwy) at large roundabout and continue toward Quirindi. Marriot Park is located 12 km from roundabout on the LHS of the Kamilaroi Hwy. Look for Wallawong signs.

From Gunnedah (15 km)

Take Kamilaroi Highway South toward Quirindi. Marriot Park is located 12 km from Gunnedah on the left hand side of the highway. Look for signs.

COMPARING ANIMALS USING EBVs

EBVs are a tool that will help you to make more educated decisions when you are choosing breeding stock. The best way to make use of this information is to first decide YOUR breeding goals and secondly to select animals with EBVs that match those criteria.

Birth Weight EBV (kg) is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV indicates the effect of the daughter's milking ability, inherited from the sire, on the 200-day weight of her calves. For dams, it indicates her own milking ability.

200 Day Growth EBV (kg) is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

Mature Cow Weight EBV (kg) is based on the cow weight when the calf is weighed for weaning. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Smaller, or more moderate EBVs are generally more favourable. The Mature Cow Weight EBV may also be used by steer breeders wishing to grow animals out to a larger weight.

Scrotal Size EBV (cm) is calculated from the circumference of the scrotum, measured in centimetres and adjusted to 400 days of age. This EBV is an estimate of a sire's genetic merit for scrotal size and is positively correlated to age of puberty in female progeny.

Carcase Weight EBV (kg) is based on abattoir carcass records and is an indicator of the genetic differences in carcass weight at the standard age of 650 days.

Eye Muscle Area EBV (sq cm) is calculated from measurements from live animal scans and from abattoir carcass data. This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300 kg dressed carcass. More positive EBVs indicate better muscling on animals. Sires with relatively higher EMA EBVs are expected to produce better muscled and higher percentage yielding progeny at the same carcass weight than sires with lower EMA EBVs.

Rib Fat and Rump Fat EBVs (mm) are calculated from measurements of subcutaneous fat depth at the 12/13 rib site and the P8 rump site (from live animal scans and from abattoir carcasses) and are adjusted to a standard 300 kg carcass. These EBVs are indicators of the genetic differences in fat depth on a standard 300 kg carcass. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcass weight than sires with higher EBVs.

Please note that Murray Grey and Angus Australia EBVs are NOT directly comparable and operate from different bases. Society averages are shown below.

EBV	\$224	\$394
Perc	38	26

Comments: Vulcan V101 is a truly great example of a beef bull. Phenotypically he is weighty, long and with a great combination of muscularity and softness. He also possesses sound feet, reproductive structure, and quiet temperament. Genetically he also ticks a lot of boxes, with moderate birthweight, high growth and a Coat Type RBV in the top 4%. A bull that was orphaned at 5 months and has done it on his own since then. A very good option for use in Northern Australian production systems.

Sire - CHILTERN PARK PICASSO P9

Dam - BURENDA DIAMOND DOVE P179

Genetic Status: AMF,CAF,DDF,NHF

\$ Index Values		
	ABI	ABLFci
EBV	\$199	\$341
Perc	66	68

Comments: Valiant V105 has been a standout wow factor bull since birth. As heifers first calf, his dam has grown into a magnificent donor female who sells as Lot 32. He was chosen from a young age to be used in 2026 as the AI backup sire, thus he may present in slightly lower condition score than his contemporaries. Don't be mistaken as he possess an excellent carcass, depth of body, mobility and sire appeal, all while maintaining a crusey temperament handed down from his mother. His EBVs indicate his versatility with well below average Birthweight EBV, very good foot structural data and a Coat Type RBV in the top 14%. A proper stud sire in the making that will have a dramatically positive contribution to his new herd.

Dam - WALLAWONG ACE S172

Genetic Status: AMF,CAF,DDF,NHF

Comments: War Like W115 is the first of the ET brothers from the Picasso P9 (top 1% for Coat Type RBV) x E44 mating. They are a group of very functional young bulls, great for growing out and using as a cost effective sire later in the year. W115 possesses a spot on maturity type, with added body length and desirable coat type. A very good option for production of heavy feeder offspring in a self replacing herd.

Sire - CHILTERN PARK PICASSO P9

Dam - ABBOTT PATRICIA E44

\$ Index Values			
	VTI	SI	HGFSI
Value	\$115	\$148	\$171
Average	\$107	\$132	\$157

Comments: Antionette R4 is an outstanding individual. She is not the biggest cow, but at 800kg in a moderate frame, she sure is one of the best industry relevant females we have ever produced, and her udder quality is perfect. She is highly fertile producing 2 calves (to the neighbours bull) before those listed on the register. She is by the highly regarded Masterclass M22, while her donor dam M52 sold international embryos and herself sold for \$10,000. Her 2024 drop heifer calf sells as Lot 85 and is an exceptionally deep bodied, functional heifer. R4 excels for weight for size and would be an exceptional female for Northern production systems looking to increase fertility while retaining yield and softness. High quality heifer calf at foot, Wallawong Antionette W2, DOB 14/11/25, LEJ25W2, sired by Wallawong Tiptoe T63 . AI'd to Lindsay Sphinx S10 on 16/2/26 and joined to LEJ T63 from 29/3/26 until sale. To be preg tested prior to sale.

Value	\$124	\$147	\$166
Average	\$107	\$132	\$157

Comments: Lolita U42 might well be the biggest opportunity presented at this sale. She is an outstanding female, built perfectly in all respects. She is a growthy, exceptionally wide through the hips and just simply oozes class. She is a full sister to Lot 78 and again by Masterclass M22. She calved naturally and unassisted on 5/3/26, however, her calf's face was unfortunately not cleaned effectively and he did not survive. This is a tremendous female being sold in an unfortunate circumstance. Joined to LEJ T63 from 29/3/26 - until sale. To be preg tested prior to sale.

LOT 90B - LEJ G35 x NEW M13 - 5 Grade 1 Conventional

Comments: Simply a wow joining in these embryos. Annabelle M13 was the Grand Champion and top priced female at the 2017 National Show and Sale. We subsequently purchased her as the top priced lot at the Glenliam Farm Dispersal. She was collected for New Zealand Export embryos, and was a cow of significant presence, style and power. The mating sire, Vinnie Roe G35 was used significantly at Wallawong and exported to several countries where he has proven to be a bull that adds muscle, while maintain moderate mature weight. The quality of this mating should not be overlooked for its uniqueness and quality. Embryos located at Northern Artificial Breeders, Scone, NSW. Purchaser to pay all costs associated with dispatch and shipping. Australian domestic use only.

LOT 91 - NEW F33 x JOS B33 - 6 Grade 1 Conventional

Comments: Embryo matings don't get any better than this. T.T. B33 was the Sydney Royal Grand Champion MG Female in 2015. Yes that's correct, as a 9 year old cow!. Her longevity was outstanding and her temperament and presence second to none. She was the dam of Masterclass M22 and many retained daughters. This embryo mating has resulted in many quality progeny, selling to \$15,000. T.T. B33 did it all in here career, with embryos exported around the globe, champion ribbons and outstanding progeny. A simply once in a lifetime cow. The mating sire, Falcon F33, needs little introduction, as an influential breed sire, he sired Jeopardy J14 and several other bulls that reached stud sire level. A quality offering for anyone serious about the breed. Embryos located at Northern Artificial Breeders, Scone, NSW. Purchaser to pay all costs associated with dispatch and shipping. Australian domestic use only.

LOT 101 - LEJ Q6 - 20 x straws

Comments: Quantity Q6 was the retained stablemate to Quality Q5 who was the top priced bull, \$25,000, at our 2021 Annual Sale. A bull that exhibited tremendous carcass attributes, and used lightly before a fence entanglement brought and end to his sire duties. A sire that has the ability to stamp his progeny with amazing carcass attributes and highly suited to steer and carcass competitions, while still maintaining positive Fat EBVs. Semen located at Northern Artificial Breeders, Scone, NSW. Purchaser to pay all costs associated with dispatch and shipping. Australian domestic use only. Expected to be NT821 carrier.

LOT 102F - 4W P49 - 100 x straws

Comments: Paringa P49 was an impressive, deep bodied, smooth shouldered sire that was purchased from the 2020 Woodbourn Annual Sale for \$14,000. He has been exported to NZ and North America and has proven to be a sire of easy care offspring. Wallawong sons have sold to \$15,000, and have made their way into stud breeding enterprises at Southend and Cadfor. Note all Growth EBVs are in the top 3-4%. Semen located at Total Livestock Genetics Vic. Semen is OIE collected and certified for export embryo fertilisation, but is sold for Australian domestic use only. Purchaser to pay all costs associated with dispatch and shipping. NT821 tested free.

TERMS AND CONDITIONS OF SALE

The Stock - As all lots are open for inspection prior to the commencement of the sale, the stock offered are to be sold with all faults and the buyer must satisfy themselves as to the condition, quality and fitness thereof before offering a bid. No error or misdescription shall invalidate any sale or give rise to any claim for compensation.

The vendor guarantees no animal has been given growth promotants of any kind.

The Sale - The stock shall be at the risk of the buyer from the fall of the hammer whether delivered or not. The sale is at the vendor's discretion subject to a floor price. Subject to the aforesaid the highest bidder shall be the buyer. Bids will be exclusive of GST, with GST being added to the final sale price and invoiced to the purchaser. No bid shall be less than the previous bid. If any dispute arises respecting a bid, the lot shall be put up again at the last undisputed bid.

Payment - Unless otherwise stipulated, all lots shall be sold for cash. Interest at the rate from time to time charged by vendor shall be paid in any case where a purchaser makes default on due payment.

DISCLAIMER

Whilst all due care and attention has been paid to the accuracy in the compilation of this catalogue, neither the vendor nor the selling agents, breed associations or representatives therefore assume any responsibility (including consequential loss) whatsoever for the correctness, use or interpretation of the information (including, but not limited to pedigree, DNA information, EBVs, index values) on animals included in this catalogue.
